CAREER SUMMARY

Frontend Developer with professional experience building **responsive** and **scalable web applications** using **React.js**, **Next.js**, **TypeScript**, **JavaScript**, and **Tailwind CSS**. Currently working as a **Junior Frontend Developer** at Shubpy Pvt. Ltd., with prior **experience** as a **Web Developer Intern** at Techlanz Pvt. Ltd. Passionate about creating high-quality user experiences and currently contributing to **AI-powered products** such as **Mentor AI** and **Lex AI** while expanding expertise in **Node.js**, **Express.js**, **MongoDB**, **Docker,** and modern web technologies.

EDUCATION AND CERTIFICATION

Master of Computer Applications (MCA) *(pursuing)* | Indira Gandhi National Open University (IGNOU), New Delhi, India

Bachelor of Computer Applications (BCA) | Indira Gandhi National Open University (IGNOU), New Delhi, India

Senior Secondary (Class XII) | Geeta Senior Secondary School, Delhi, India

Secondary (Class X) | Naveen Public School, Delhi, India

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frontend: React.js, Next.js, Tailwind CSS, Redux

Backend: Node.js, Express.js

Database: MongoDB

Developer Tools: Git, GitHub, Docker, Postman, Figma, VS Code

AI Tools: ChatGPT, GitHub Copilot

Concepts: Responsive Design, REST APIs, API Integration, Component-Based Architecture, Cross-Browser Compatibility, Debugging, Performance Optimization

SOFT SKILLS

Communication | Problem Solving | Team Collaboration | Critical Thinking | Adaptability | Time Management | Attention to Detail | Continuous Learning.

Work Experience

Techlanz Pvt. Ltd. | **Remote**

Web Developer Intern | June 2024 – August 2024

- Developed, designed, and tested responsive web pages for client and internal projects.
- Debugged and resolved frontend issues to improve application performance and user experience.
- Collaborated with the development team to build and enhance web-based applications.
- Converted UI/UX designs into responsive, reusable frontend components using modern web technologies.
- Worked in an agile environment while improving debugging, problem-solving, and teamwork skills.

Shubpy Pvt. Ltd.| **Remote**

Junior Frontend Developer | November 2024 – Present

- Developing responsive and user-friendly web applications using **React.js**, **Next.js**, **TypeScript**, and **Tailwind CSS**.
- Building reusable and scalable UI components following modern frontend development practices.
- Integrating REST APIs and implementing dynamic features to enhance user experience.
- Debugging, maintaining, and enhancing existing features while ensuring cross-browser and cross-device compatibility.

Mentor AI *(Personal Project – Under Development)*

Tech Stack: React.js, Next.js, TypeScript, Tailwind CSS, Node.js, Express.js, MongoDB, REST APIs, AI API Integration

- **AI-Powered Learning: -** Mentor AI is an AI-driven learning platform designed to provide personalized guidance, answer user queries, and assist learners with intelligent recommendations.
- **Modern User Experience: -** Built using React.js, Next.js, TypeScript, and Tailwind CSS to deliver a fast, responsive, and intuitive user interface.
- **Scalable Architecture:** Developed with reusable components, API integration, and modular architecture to ensure maintainability and future scalability as new AI features are added.

Lex AI *(Personal Project – Under Development)*

Tech Stack: React.js, Next.js, TypeScript, Tailwind CSS, Node.js, Express.js, MongoDB, REST APIs, AI API Integration

- **Intelligent AI Assistant: -** Lex AI is an AI-powered application focused on enhancing productivity through intelligent conversations and workflow automation.
- **Responsive Interface: -** Developed using React.js, Next.js, TypeScript, and Tailwind CSS with a clean, responsive, and user-friendly interface.
- **Performance & Scalability:** Built with reusable components, optimized rendering, and seamless API integration to provide a scalable and efficient user experience.

GrocGo (Personal Project)

- **User Friendly Interface: -** GrocGo boasts a sleek and intuitive interface designed with React, ensuring smooth navigation and effortless browsing for users.
- **Effective Shopping Experience: -** Through its streamlined features, GrocGo facilitates efficient grocery list management, allowing users to easily add, remove, and modify items, thus optimizing the shopping process.
- **Enhanced Convenience:** With GrocGo, users can enjoy the convenience of online grocery shopping, thanks to its seamless integration of search, browsing, and purchasing functionalities, ultimately enhancing the overall shopping experience.

Tailorman (Personal Project)

- The Tailorman project is a React-based web app showcasing a premium clothing brand. It uses React's component architecture and hooks for dynamic updates, with a UI/UX designed in Figma for elegance and branding. Features include a custom Topbar, responsive design, and performance optimizations like lazy loading for a high-end experience.
